

NAS SCOTLAND RECRUITMENT SERVICES LTD. **For Job Seekers**

NAS have a variety of positions available throughout the transport and distribution sectors, covering all aspects of HGV driving and warehouse work. We work with a range of clients, from major third party distribution chains, through many of the best known High Street retail and supermarket names, to a variety of local transport companies, large and small.

Because our own staff are ex-drivers and transport professionals, we can guarantee that you will not be just a number to us. Our drivers are our most important asset. We will talk to you about your preferences for work, and we will be able to offer advice on all aspects of HGV work. Because we work closely with many local companies on an ongoing basis, we are often able to help you gain the experience, training and qualifications to develop your career further.

Whatever type of transport work you are looking for, we can guarantee that you will receive a warm and professional welcome from an experienced recruiter. To find out more about what NAS can do for you, either speak to one of the team on 01506 460334, or look through the job listings elsewhere on this website.

We have now added Driver CPC training to our range of services, and are fully JAUPT-approved. For further details about what is available, please contact the office and speak to Andy Beattie or Richard Colwell, or e-mail us at info@nasscotland.com or info@nasscotland.comgrowth?
